

# COMPREHENSIVE SECURITY MANAGEMENT FOR SCHOOLS

## ALLY IN ACTION

### Scenario #1

A dispatcher receives a call regarding a stolen bike on campus. She quickly enters the information into Ally, dispatches the nearest available officer, and adds updated call comments shown in real time.

The officer responds to the incident and fills out his report in Ally, attaching any applicable multimedia files. The officer then starts the workflow process for review.

### Scenario #2

Prospective and current students want to find out the crime statistics at a specific campus during the past school year.

School administrators use Ally to run Clery reports that can be uploaded to the web and available to the public.

Clery Report - 2016

Summary: 2016 - Summary: 6 Valid / 27 With Errors

2015 - Summary: 20 Valid / 28 With Errors

2014 - Summary: 6 Valid / 1 With Errors

Clery Location Type	Count
Clery - On Campus - Not Housing	14
Clery - On Campus - Student Housing	20
Clery - Off Campus - Fraternity/Society	8
Clery - Off Campus - Affiliated Property	2
Clery - Off Campus - Adjacent Public Property	13
Clery - Off Campus - Not Adjacent/Affiliated	7

Administrators also use Ally's built-in heat map and statistical analysis capabilities to provide key decision makers with the data they need to create a safer campus.

## With Ally You Can:

- Track Incident Information
- Dispatch
- Create Workflows
- Manage Training
- Attach Almost Any Electronic File
- Manage Maintenance Tasks
- Easily Train Employees
- Create a Mobile Command Center

## About Ally

Ally stores all security data in one centralized database and provides complete data integration throughout the system.

Ally's web-based nature means your personnel have mobile access to store, search, retrieve, and report on any system data anywhere and at any time, using any device with an internet connection.

You can take advantage of customizable fields and built-in analytics that make accurate data capture and reporting convenient and efficient.

Ally's intuitive, user-friendly design makes it easy to navigate throughout the site, even if you have little or no software experience.

Motorola Solutions maintains and updates the Ally software, following the same critical security standards enjoyed by law enforcement. This saves security agencies the cost of maintaining their own server.
